Sterling Infrastructure, Inc.

ITsolutions Technical Operations Lead

Frederick, Colorado

September 2025 - Present

- Continuation of all functions of the ITsolutions Lead Technician role, broadening and expanding the scope.
- Worked as central point between help desk, applications, infrastructure and cyber security teams. Ensuring the smooth functioning of the organization's technical infrastructure, applications, and processes.
- Served as a key point of contact and trusted contributor for executive IT leadership: including the VP of Infrastructure and Cyber Security, VP of Enterprise Applications, and Director of IT Customer Service, providing direct support on daily strategic and technical initiatives.
- Implementation of standard operating procedures: including managing Change requests for efficient operations.
- Lead Troubleshooting and Incident response, above and beyond, conducting post-incident reviews to prevent future occurrences.
- Focus on budget management including choosing a new ITSM platform, negotiating with Vendors to acquire more amiable terms, and a push to streamline and automate processes.
- Hands-on implementation of Microsoft Intune for the organization, including device onboarding, package creation and testing, and development of deployment strategies.

ITSolutions Lead Technician

Frederick, Colorado

March 2024 - September 2025

- Lead and supported a Team of 9 Help Desk Technicians, providing daily guidance and mentorship
- Trained new team members on procedures, tools, and best practices to ensure smooth onboarding and consistent performance
- Acted as the primary escalation point for complex technical issues, delivering timely solutions and coaching team members through resolutions
- Fostered a collaborative team environment by answering questions, offering feedback, and encouraging continuous learning
- Maintained Imaging Servers and Imaging Templates
- Management of Ivanti's ITSM platform:
 - Troubleshooting and implementation of any features that were requested.
 - Implementing a project to update and expand the functioning of the email listener allowing more granular control of incoming emails.
 - Management of reporting and automation.
- Participated in multiple company acquisitions, in which we migrated users and data
- Initiation and completion of multiple projects to increase productivity, cost savings, and company growth. Including:
 - BookStack: New open-source documentation system, using a linux server which I helped create and maintain
 - Trimble Business Center License Structure: moved from an on-premises to cloud based structure for three companies and dozens of users
 - Teams Phone Migration: switching our help desk line from Ivanti's IVR to a Teams Auto-Attendant/Call Queue
- Started a HomeLab to perfect skills and grow in new ones. (My own Microsoft 365 Exchange, Wordpress sites, Ubiquity networking equipment)
- Constantly volunteering for new work, in order to learn and try new things
- Wrote and published countless knowledge base articles to address regular issues and break-fixes
- Continually meeting and exceeding expectations

ITsolutions Specialist

Draper, Utah

March 2023 - March 2024

- Displayed a firm grasp of IT and help desk processes and policies, ensuring compliance and adherence in all activities, including troubleshooting technical issues and resolving tickets promptly
- Acted independently with no need for active management, exercising sound judgment in prioritizing tasks
- Demonstrated ability to collaborate well with other departments to meet service level agreements
- Expertise in Windows OS and Microsoft Administration (Exchange, Active Directory, Teams, etc.)
- Mobile Device Administration
- Conducted Imaging of Hundreds of PC's
- Adept at Troubleshooting (PC's, Printers, Mobile Devices, VPN, Citrix Workspace)
- Configuring (AP's, XR's, Switches, Printers, Mobile Phones)
- Traveling as needed to Facilitate smooth IT Operations

ITsolutions Intern

Frederick, Colorado

February 2022 - March 2023

- Adapted Quickly to New Tools and Workflows
- Converted a short term internship into a full-time role, through consistent performance and initiative
- Gained recognition from leadership for quality of work and professionalism
- Took on responsibilities that were beyond the scope of the internship and contributed to the success of the company
- Perfected the fundamentals of IT and troubleshooting

U.S. Navy

Aviation Boatswains Mate, Handling

Bremerton, Washington

January 2016 - January 2020

- Assisted in the safe launch and recovery of hundreds of planes and helicopters
- Operated elevators to move aircraft in order to receive maintenance
- Drove a tractor to assist in the towing of various aircraft moves
- Performed a six-month deployment in very stressful conditions in the Arabian Sea during the hot summer months
- Performed tasks and orders, given by my superiors, without question
- Maintained the cleanliness of my divisional spaces (over 90 spaces: including 3 berthings and multiple offices)
- Trained new sailors to personnel qualification standards
